

FERRARI EXPERIENCE, ABU DHABI

BUILDING SERVICES | SPORTS AND LEISURE

Project: Ferrari Experience, Yas Island, Abu Dhabi

Client: Ferrari and ALDAR Properties

Architect/Consulting Engineer: Cansult Maunsell (AECOM)

Contractor: Voltas Ltd

Distributor: Technical Oilfield Supplies Centre.

Specification: **Crane Fluid Systems** - Gate Valves, Regulating Valves, Gate Valve, Fixed Orifice Double Regulating Valves, "Y" Type Strainers, Ball Valves

On target for completion in 2010, Ferrari and ALDAR Properties have designed an amusement park based around the prestigious and renowned Ferrari brand. Initial plans include a racetrack, rides and attractions.

The project used a wide variety of Crane Fluid Systems' valves, from Double Regulating Valves to Ball Valves, in a range of materials. Chosen for their quality, space and weight saving, the majority of Crane Fluid Systems' valves used are WRAS approved and suitable for use in potable water supplies.
