

Queen Elizabeth Hospital, Birmingham

Building Services - Hospitals and Healthcare

Project: Birmingham New Hospital

Client: University Hospital Birmingham NHS Trust / Birmingham and Solihull Mental Health NHS Trust.

Architect/Consulting Engineer: BDP

Contractor: Balfour Beatty Construction

Sub Contractor: Haden Young

Distributor: BSS (Birmingham) Ltd

Specification: **Hattersley** - MultiTherms

On target for completion in 2011, the Queen Elizabeth hospital will be the UK's largest hospital outside London. With a 1,100-bed acute hospital and 4 mental health units, the hospital will be a centre of excellence in patient care, education and research.

Throughout the build, Hattersleys' MultiTherms have been installed, providing the hospital with self-balancing, thermostatically controlled regulation of flow and thermal disinfection, assisting with protection against legionella.
