

# Ricoh Arena

## Building Services - Sports and Leisure

**Project:** Ricoh Arena

**Client:** Coventry Football Club

**Contractor:** Haden Young

**Specification:** Hattersley Hook-Up and commissioning valves

For the past six years, Hattersley Hook-Up units and commissioning valves have been heating and cooling the 32,000 seat Ricoh Arena that is home to Coventry FC. The site also comprises an exhibition hall, a hotel, a leisure club, a casino, and one of the UK's largest Tesco Extra supermarkets.

Throughout the stadium, Hook-Up flow management modules, part of Hattersley's extensive range of commissioning valves, are providing heating and air-conditioning. The units provide precise flow control, flow measurement, system and coil flushing and isolation capabilities from a single compact and lightweight unit. Built from bronze and DZR brass they can be used for chilled and heating water systems from -10 °C to 120°C.
