

Gulf Hotel

Building Services - Hotel and Leisure

Project: Gulf Hotel, Bahrain

Consulting Engineer: Alkomed (www.alkomed.net)

Distributor: Mohammed Fakhroo & Brothers (www.fakhroo.com)

Specification: Hattersley Bronze Globe Valves and PN25 Butterfly Valves

A global distribution network and an international reputation for quality have led to Hattersley valves being specified for use in the refurbishment of the HVAC systems of one of the most prestigious hotels in the Middle East.

Opened in 1969, the 357-room Gulf Hotel, Bahrain – located in Manama close to the Grand Mosque – remains one of the most popular resort hotels in the Gulf of Arabia. The five-star hotel includes 14 bars and restaurants, a 4,780 m² convention centre and the 15-storey Gulf Executive Residence which comprises of 97 apartment suites. The centre is connected to the hotel by air conditioned covered walkways.

Due to the prestigious nature of the project, Bahrain- based engineering services Alkomed (www.alkomed.net) has insisted on the highest quality of fittings throughout the building. Hattersley bronze globe valves and PN25 butterfly valves have therefore been supplied. Hattersley has also provided strainers and other associated equipment for the refurbishment of the HVAC system.
