Consultant: Veolia CZ
Contractor: PVK
Distributor: Tran-Sig-Ma
Specification: UltraGrip Flange Adaptors DN350

Prague Water Delighted with Performance of Next Generation DN350 UltraGrip

The Next Generation UltraGrip (NGUG) has certainly been received with acclaim by Prague Water. The Czech utility Company specified NGUG flange adaptors, DN350 to make a branch into an existing pipe, to take an air release valve on the proviso that it would be available in the capital city to fit later in the same week! Equally important of course was the client's requirement for the new larger size. The result - Prague Water was delighted with the installation and a hassle free solution.
